

PG&E Metered Energy

Description:

This dataset represents annual electricity and natural gas consumption for all service points within the city limits, including service points on the UC Berkeley campus. It does not include electricity on the Lawrence Berkeley Laboratory campus, which has its own power substation. The dataset was provided by PG&E.

This dataset represents annual electricity and natural gas consumption for all service points within the city limits, including service points on the UC Berkeley campus. It does not include electricity on the Lawrence Berkeley Laboratory campus, which has its own power substation. The dataset was provided by PG&E.

Tabular Data Descriptions

Column Name	API Field Name	Comment
Sector	Sector	PG&E customer classification
Year	Year	Calendar year
Electricity (kWh)	Electricity (kWh)	Electricity consumption in kiloWattthours
Natural Gas (therms)	Natural Gas (therms)	Natural Gas consumption in therms
Electricity (MMBtu)	Electricity (MMBtu)	Electricity consumption in millions of British thermal units, converted at 3,412 Btus per kWh
Natural Gas (MMBtu)	Electricity (MMBtu)	Natural gas consumption in millions of British thermal units, converted at 100,000 Btus per therm
Total (MMBtu)	Total (MMBtu)	Sum of Electricity (MMBtu) and Natural Gas (MMBtu)
